WELCOME

Empowering Modern Researchers

Onusandhan Research Portal is a comprehensive research management ecosystem created to support every stage of the doctoral journey. For eight years, we have worked quietly alongside scholars, supervisors, and institutions across India — building the tools, services, and structures that turn raw research into rigorous, publishable, and defensible scholarship. Our platform brings AI-assisted review, secure document management, and end-to-end academic services under one roof, so that scholars can focus on original thinking while we handle the systems around it.

Our Mandate

Alignment with UGC guidelines and NAAC standards across every service we deliver.

Our Method

Human expertise, amplified — not replaced — by purpose-built AI research tools.

Our Reach

Scholars, supervisors, research consultants, and institutions nationwide.

8+ YEARS OF SERVICE	1,000+ SCHOLARS SUPPORTED	500+ DOCUMENTS MANAGED	10+ ACADEMIC SERVICES
------------------------	------------------------------	---------------------------	--------------------------

Scholar

Manage your thesis, publications, and identity — with full access to AI-assisted research tools.

Supervisor

Review scholar submissions, track progress, and provide structured feedback in one place.

Admin

Manage users, payments, and institutional settings across the entire portal.

One Platform

Thesis, publications, and researcher identity managed in a single connected system.

Human + AI Review

Every AI-assisted output is guided by real academic expertise, not automated alone.

India-Aligned

Built around UGC 2022 guidelines and NAAC standards from the ground up.

One Point of Contact

A dedicated coordinator follows your journey from enquiry to submission.

FRAMEWORK

The PhD Journey, Structured

We map the doctoral path into six clear stages — each supported by dedicated tools and services, so scholars always know what comes next and never navigate the process alone.

1 STAGE 01

Submission

Registration, documentation, and onboarding onto the Onusandhan portal with a secure scholar profile.

2 STAGE 02

Topic Selection

Topic Engine evaluates candidate topics for originality, feasibility, and academic impact.

3 STAGE 03

Literature Review

Structured methodology modules and content support to build a defensible, well-sourced review.

4 STAGE 04

Data Analysis

SPSS-based statistical analysis support to validate findings with methodological rigor.

5 STAGE 05

Thesis Writing

AI Thesis Reviewer delivers structural feedback and peer-review-style evaluation before submission.

6 STAGE 06

Publication & Viva

Scopus-indexed publication support and dedicated viva voce preparation coaching.

Support doesn't stop at any single stage. Each phase feeds directly into the next — from topic validation through to your final viva — so scholars are never handed off between disconnected services.

SMART TOOLS

Research Technology, Purpose-Built

Four proprietary tools sit at the core of the portal — designed specifically for the demands of doctoral research, not adapted from generic productivity software.

01

Topic Engine

FLAGSHIP TOPIC GENERATION APP

Generates and validates PhD topics against 13 formal evaluation criteria for originality, feasibility, and academic impact — see the full spotlight overleaf.

→ WWW.TOPICENGINE.CO.IN

02

AI Thesis Reviewer

AUTOMATED STRUCTURAL FEEDBACK

Provides automated peer-review-style evaluation and structural feedback on thesis chapters — catching gaps in argument, flow, and formatting before human review.

03

Research DMS

DOCUMENT MANAGEMENT SYSTEM

A secure cloud repository for thesis files, drafts, and publications — version-controlled, backed up, and accessible wherever the scholar works.

04

Research LMS

LEARNING MANAGEMENT SYSTEM

Structured learning modules covering research methodology, academic writing, and core research skills — self-paced and mapped to the PhD journey.

How the tools work together

Validate a topic **Topic Engine** → Draft & store chapters **Research DMS** → Get structural feedback **AI Thesis Reviewer** → Build core skills **Research LMS**

FLAGSHIP APP

Introducing Topic Engine

Our most-used tool, now available as its own dedicated application — built to solve the single hardest decision of any doctorate: choosing the right topic.

A BCI EDUTECH INITIATIVE · POWERED BY ONUSANDHAN

TopicEngine

PhD Research Topic Generation & Validation, Built for India

www.topicengine.co.in

Topic Engine generates and validates Indian PhD research topics against a comprehensive framework of formal evaluation criteria — helping scholars refine a concept before formal submission, with confidence that it will withstand DRC and committee scrutiny. It is the same engine embedded in the Onusandhan portal, now built out as a standalone destination scholars can visit directly.

2022

UGC GUIDELINE
YEAR ALIGNED

01

DESTINATION FOR
TOPIC VALIDATION

Built on Recognised Frameworks

UGC 2022 Guidelines

Checked for alignment with current UGC doctoral standards.

FINER Framework

Feasible, Interesting, Novel, Ethical, Relevant research questions.

SMART + PICO

Specific, Measurable, Achievable, Relevant, Time-bound objectives.

UGC 100-Mark Rubric

Scored against the official UGC evaluation rubric.

What You Get From Every Evaluation

Evaluation Report

A structured summary scored against all 13 formal criteria.

Feasibility Notes

Specific strengths and risk flags identified for your proposed topic.

Refinement Guidance

Suggested adjustments to strengthen originality, scope, and relevance.

DRC-Ready Summary

A concise brief formatted for supervisor and committee review.

ACADEMIC SERVICES

Expert Support, End to End

Beyond the platform, our academic services team works directly with scholars on the documents and milestones that matter most.

01

PhD Proposal & Synopsis Writing

End-to-end drafting support for research proposals and synopses that meet institutional and DRC expectations.

PROPOSAL

SYNOPSIS

02

Content Writing with AI Refinement

Human-drafted academic content, refined through AI-assisted editing for clarity, tone, and precision.

ACADEMIC WRITING

03

Plagiarism Detection & Reduction

Turnitin and iThenticate-compliant checks, paired with practical guidance on responsible reduction.

TURNITIN

ITHENTICATE

04

Scopus Q1 / Q2 Publication Support

Guidance from manuscript preparation through journal selection and submission for indexed publication.

SCOPUS Q1

SCOPUS Q2

05

Complete PhD Admission Support

Full-cycle admission guidance from first enquiry through confirmed enrolment — see the full spotlight overleaf.

ADMISSIONS

ENROLMENT

How a request becomes a delivery. Share your requirement with your coordinator, we scope the exact deliverable and timeline together, and our academic team returns a reviewed, ready-to-submit draft.

FEATURED SERVICE

Complete Admission Support

From first enquiry to confirmed enrolment, we walk every candidate through the entire PhD admission process — so the only thing scholars have to think about is their research.

ADMISSION PARTNER PATHWAY

A Guided Route into Doctoral Study

Dedicated Admission Assistance

Enquiry through confirmed enrolment

01

Enquiry & Counselling

A first conversation to understand the candidate's background, research interests, and eligibility.

02

Programme Fit

Matching the candidate to the right doctoral programme, department, and area of specialisation.

03

Documentation

Compiling and verifying transcripts, certificates, and every supporting document the application requires.

04

Application Filing

Complete, accurate submission of the admission form and fee within institutional deadlines.

05

Entrance & Interview Preparation

Focused coaching ahead of entrance tests and admission interviews, where applicable.

06

Enrolment & Onboarding

Confirmation of admission, fee formalities, and a smooth handover onto the Onusandhan research portal.

One point of contact, start to finish. Candidates work with a single Onusandhan coordinator across all six steps — no re-explaining their case at every stage, and no missed deadlines.

Q. Can I start while still finishing my master's?

Yes — enquire early and we'll help you time the application around your final results.

Q. Do you help with entrance or interview prep?

Yes, where the target programme requires one — coaching is built into Step 5 of this pathway.

APMS SERVICE

We Connect Researchers with Global Academic Platforms

Onusandhan helps you build, link, and manage your complete researcher identity across every major academic network — a scholar's academic identity is as important as their thesis.

ORCID iD orcid.org

GLOBAL

GLOBAL STANDARD

A persistent digital identifier that distinguishes you from every other researcher — mandatory for UGC, Scopus, and WoS submissions and journal publications.

Onusandhan's role: *creates and verifies your ORCID iD, links all publications, and integrates it into your thesis and paper submissions.*

Vidwan ID vidwan.inflibnet.ac.in

INDIA

INDIAN MANDATORY

India's national researcher profile database under INFLIBNET — required for DST, SERB, ICSSR grants and NAAC institutional accreditation assessments.

Onusandhan's role: *registers your Vidwan profile, uploads publications, and ensures your profile meets NAAC and funding-body requirements.*

Google Scholar scholar.google.com

GLOBAL

CITATION INDEX

Tracks your h-index, i10-index, and citation counts — the most widely checked metric by PhD viva examiners, institutions, and collaborators worldwide.

Onusandhan's role: *creates your verified Scholar profile, links all thesis chapters and papers, and grows your citation visibility.*

Why this matters for your viva. Examiners routinely cross-check these profiles before the defence begins — a consistent, verified identity across every platform signals a scholar who is organised, credible, and easy to cite correctly.

APMS SERVICE, CONTINUED

Researcher Identity Management

Active connections across every remaining index — completing a single, verifiable researcher identity.

Web of Science webofscience.com

GLOBAL

TOP-TIER INDEX

Your ResearcherID is essential for Q1/Q2 publication tracking, institutional rankings, and DST-FIST, DBT, and international grant applications.

Onusandhan's role: *builds your WoS ResearcherID, syncs it with ORCID, and guides targeted publication in WoS-indexed journals.*

ResearchGate researchgate.net

GLOBAL

RESEARCH NETWORK

The world's largest academic social network — your RG Score, reads, and recommendations directly influence collaboration opportunities and academic visibility.

Onusandhan's role: *sets up your ResearchGate profile, uploads full-text papers, and builds your network for inter-institutional collaboration.*

Scopus scopus.com

GLOBAL

INDEXED DATABASE

Elsevier's abstract and citation database of peer-reviewed literature — the standard reference for benchmarking journal quality (Q1/Q2) and author output.

Onusandhan's role: *creates and verifies your Scopus Author ID, links indexed publications, and supports your Q1/Q2 submission strategy.*

One Identity.
Every Index.

Onusandhan's APMS service handles complete researcher identity setup across every major platform. Consistent naming, affiliation, and metadata across ORCID, Vidwan ID, Google Scholar, Web of Science, ResearchGate, and Scopus means citations are correctly attributed and a scholar's body of work is discoverable as one coherent record — not scattered fragments.

Q. What if I already have some of these profiles?

We audit what already exists, correct any inconsistencies, and link everything into one coherent identity.

Q. How long does full setup take?

Most scholars are fully connected across all six platforms within a single onboarding cycle.

ADDITIONAL OFFERINGS

Beyond the Thesis

Research support that extends past the document itself — into publication, digital presence, and career.

Publication, Seminar & Training Program

End-to-end support for research paper publication, academic seminars, and structured training programs for scholars and institutions.

Website & App Development

Digital presence and tools built for research groups, labs, and institutions.

Content Writing & AI Refinement

Professional content writing paired with careful AI-assisted refinement for research documents, papers, and institutional content.

APMS Service

Unified Academic Platform Management Service — syncing scholar profiles across ORCID, Vidwan, Google Scholar and more.

COMING SOON

Scholar

Full access to thesis management, publication tracking, and every AI research tool on the portal. From topic selection through final submission, Scholars keep every document, citation, and identity credential organised in one place.

Supervisor

Reviews scholar submissions, tracks milestone progress, and delivers structured feedback within the platform. Supervisors can monitor multiple scholars at once and sign off on chapter-level progress without leaving the portal.

Admin

Manages user accounts, payments, and institutional configuration across the Onusandhan portal. Admins oversee department-wide rollout and access permissions for every Scholar and Supervisor account.

TRUST & COMPLIANCE

Data, Handled with Integrity

Scholars entrust us with years of original work. We treat that trust as a formal obligation, not a footnote.

 DPDP Act & Rules Compliant Fully aligned with the DPDP Act 2023 and DPDP Rules 2025 governing personal data protection in India.	 TLS 1.3 Encryption All data in transit is protected with TLS 1.3, the current standard for secure transmission.
 Secured Cloud Backend Built on Firebase infrastructure with layered security rules governing every access point.	 30-Day Data Erasure Scholars may request full erasure of their data, honoured within thirty days as a standing right.
 Zero Data Sale Guarantee Scholar data is never sold. It is used solely to deliver the services requested.	

DPDP 2023 / 2025	TLS 1.3	24 / 7 SUPPORT
------------------	---------	----------------

Our commitment, in plain language. Your thesis represents years of original work, and we treat it that way — encrypted in transit, access-controlled at every layer, never sold or shared, and deleted on request within thirty days. Compliance is the baseline, not the goal.

BEGIN YOUR RESEARCH JOURNEY

Let's Build Your Doctoral Path, Together.

Whether you are selecting a topic on Topic Engine, applying for admission, or approaching your viva — Onusandhan Research Portal meets you at every stage with the right tool, the right service, and a team that understands Indian doctoral research.

01

Sign Up

Create your scholar profile on the Onusandhan portal in a few minutes.

02

Choose Your Service

Pick the tool or academic service that matches where you are right now.

03

Meet Your Coordinator

Get one point of contact who follows you through to submission.
